Time is Getting Short

I had hoped that we'd be able to survive using my savings until the end of June. It now appears that the deadline might be the end of March. If we don't secure a source of cash by that time, then we won't have a way to survive. We'll probably have to abandon or sell most of what we own. I'll be forced to terminate the *Frontiersman* and *The Pharos Connection*.

We're still seeking work, and if we find enough to secure our survival, then I'll discontinue this request for help. I've received a few contributions, but not enough to cover our expenses. I haven't received any pledges at all. If you feel that you can make a contribution or a pledge, I'd appreciate it. I'd prefer that you send cash, but if you'd rather send a check then please make it payable to John Webster. If you have a different suggestion, I'll be happy to hear it.

Mail your contributions to me at:
479 E. 700 N., Firth, Idaho 83236.
Sincerely, Sam Aurelius Milam III
